

# ROC L8 RC CONVERSION KITS

**Metzke has developed a Reverse Circulation Conversion Kit which can be adapted to your ROC L8 Mk1 and Mk11 Production Rig.**

**All components have been developed and proven, drawing on 25 years of RC drilling and manufacturing experience.**

## **Metzke RC Kit Includes:**

- **RC Head Modification**
- **Sampling Cyclone and Cone Splitter specifically designed for production drilling requirements.**
- **Hydraulic control of the sample system**
- **Training package also available upon request**

**Metzke also provides a consumable start up package including rods, subs, down hole hammer and bits.**
